IDENTIFIERS	*City College of San Francisco CA

ABSTRACT

This report provides longitudinal fall enrollment data comparisons as well as demographic information for each campus of the City College of San Francisco in California (CCSF). The following data elements are included in this report: (1) overall enrollment; (2) academic areas of enrollment; (3) gender, ethnicity, and age; (4) educational goal; (5) average units attempted and maximum units attempted; (6) average attendance hours and maximum attendance hours; and (7) zip code. Data came from two different sources: the CCSF Credit and Non-credit Applications for Admission and the CCSF student database. Section 1 provides results on these items for each of the nine campuses, followed by campus descriptions as reported in the schedule of classes. Section 2 provides campus comparisons, including: (1) English-as-a-Second-Language enrollment by campus; (2) total credit enrollment and demographics; and (3) total noncredit enrollment and demographics. (JJL)

TABLE OF CONTENTS

Introduction and Definitions.....*i*

SECTION ONE: INDIVIDUAL CAMPUSES

For each of the nine campuses listed, the following items are presented:

- Campus description as reported in the CCSF Spring 1999 Schedule of classes
- Credit and Noncredit Enrollments (Unduplicated Headcounts)
- Academic Areas of Enrollment
- Gender, Ethnicity and Age
- Educational Goal
- Average Units Attempted or Attendance Hours
- Maximum Units Attempted or Attendance Hours
- Zip Code

Alemany.....1

Castro-Valencia.....7

Chinatown-North Beach.....13

Downtown.....19

Evans.....25

John Adams.....31

Mission.....37

Phelan.....43

Southeast.....50

SECTION TWO: CAMPUS COMPARISONS

Campus Comparisons.....56

ESL Enrollment by Campus.....61

Total Credit Enrollment & Demographics.....62

Total Noncredit Enrollment & Demographics.....64

Appendix.....*A*

INTRODUCTION AND DEFINITIONS

INTRODUCTION

This report provides longitudinal Fall enrollment comparisons as well as demographic information for each campus of City College of San Francisco. The following data elements are included in this report:

- overall enrollment (unduplicated)
- academic areas of enrollment
- gender, ethnicity, age
- educational goal
- average units attempted and maximum units attempted (credit)
- average attendance hours and maximum attendance hours (noncredit)
- zip code.

These elements come from two different sources: the CCSF Credit and Noncredit Applications for Admission and the CCSF student database.

DATA DEFINITIONS

All enrollments, including academic areas of enrollment, are unduplicated based on the California Community Colleges Management Information System (MIS) definitions. The State requires **at least 0.5 units attempted or 8 positive attendance hours** for inclusion. (For more specific information see Appendix A.)

Demographic information from the CCSF Credit and Noncredit Applications for Admission includes: gender, ethnicity, age, and zip code of current residence. Deriving this demographic information from the Application provides the greatest possible accuracy. Educational goal reported on the student's Application is also presented in this report. Future publications of the Campus Profiles Report will include additional information available due to changes in the Applications.

Academic areas of enrollment, average/maximum units attempted (credit), and average/ maximum positive attendance hours (noncredit) are derived from semester enrollment data in the CCSF student database. Since these items follow the State definitions, average positive attendance hours represents the mean average of *those students attending at least eight hours*. Similarly academic areas of enrollment only consider those students who meet the State criteria. This may affect enrollment in areas such as Learning Assistance which typically have students who do not earn units or who attend for fewer than eight hours. Also note, areas such as African American Studies; Asian Studies; Gay, Lesbian & Bisexual Studies, and Women's Studies include only courses which are exclusive to those departments; enrollments for cross-listed courses are only included under the academic area which "owns" the course.

We are interested in knowing what other campus-wide information would be useful to you; please fill out the enclosed response sheet.

SECTION ONE

INDIVIDUAL CAMPUSES

ALEMANY CAMPUS
750 Eddy Street, San Francisco, CA 94109

Noncredit / Day & Evening Classes

APPENDIX

APPENDIX

The definition for **unduplicated headcount** used throughout this report follows the State MIS definitions for data elements XB01 (Section Accounting Method) and STD7 (Student Headcount Status).

Credit data includes students:

- enrolled in Weekly and Daily Census sections after first census
- enrolled in Apprenticeship sections after first census
- attending at least eight hours in a Positive Attendance section
- earning at least 0.5 units (or eight hours) in an Independent Study section.

Noncredit data includes students:

- attending at least eight hours in a Positive Attendance section
- attending at least eight hours in an Apprenticeship section.

Since this report is by campus, only those individuals meeting the above criteria *for a campus* are included. For Noncredit for each semester reported, there were approximately 15-19 people who achieved at least 8 hours but not at any single campus—these individuals are not included.

Academic areas of enrollment for a given campus also follow the State definition. The areas were defined based on the Academic Unit Codes recorded in the database. These codes generally refer to particular departments and relate to funding.

Note: gender, ethnicity and age figures presented in the All Credit and All Noncredit sections of this report differ somewhat from those presented by the Office of Research & Planning in the Planning Atlas. The "Enrollment Overview" section in the Fall 1997 Atlas contains Credit and Noncredit enrollment information taken directly from MIS reports. The data in this report includes some students who were not included the MIS reports, most likely due to data entered into the CCSF student database after the MIS submission deadline. However, the percentages in this report closely match those in the Atlas. Also, the Fall 1996 Planning Atlas included in Appendix A zip codes enrollments for Credit and Noncredit which did not follow MIS definitions but instead included all individuals in the student database regardless of attendance.
